

2023 Junior Golf Program - Riverview

This year, we are proud to expand our junior program to offer more in-depth lessons to those who participated last year and already have a solid understanding of the game in our Fine-tuning program. We believe that this expanded curriculum will provide an exciting challenge for young golfers, allowing them to take their game to the next level.

Our expanded program, "Fine Tuning," is designed for juniors who have already been golfing and are looking to improve their game further. With the help of our experienced instructors, golfers will receive specialized coaching to fine-tune their skills, work on different shots, and improve their overall game. Each week, participants will get to practice in the hitting cages and on the practice greens with an instructor before heading out to play a few holes with new friends and an instructor. The goal of this program is not only to improve skills but also to build new friendships and encourage young golfers to get out on our course and practice regularly throughout the season.

We are also committed to retaining our fundamentals program, which is designed for younger players and those who are just starting with the sport. In this program, our instructors will focus on teaching basic etiquette and understanding of how to play the game. Participants will receive some classroom-style teaching, an introduction to each club and their proper use, followed by practice in the hitting cages, and an intro to chipping and putting on our practice greens.

Whether your child is a seasoned pro or a total beginner, we welcome all youth to join our junior golf program. Our experienced instructors are dedicated to providing a fun, safe, and challenging environment for all golfers to grow and develop their skills.

We believe that learning the game of golf is not just about technique but also about building lasting friendships and a lifelong love for the sport. Our junior golf program provides the perfect opportunity for young golfers to do just that. So, come join us for an exciting season of golf and make new friends along the way!

The program will run during the weekdays in June, starting at 4:00pm: Days of the week TBD.
